

PREMIUM EGYPTIAN FRESH PRODUCE

# RADIXNILE

Rooted in the Nile · Driven by the sun.

WHAT WE GROW

Garlic · Red, Yellow & Spring Onion · Sweet Potato

FRESH FRUITS & VEGETABLES · EXPORT CATALOGUE

# Rooted in the oldest soil on earth.

— ♦ Radix — the root. Nile — the water that feeds it.

RadixNile grows from the black earth of the Nile — farmland worked by Egyptian hands for seven thousand seasons. We treat that inheritance as a duty: honest produce, naturally grown, carefully graded, and delivered to the world exactly as the land intended.

OUR GROWING LAND — THE DELTA AND UPPER EGYPT

## WHO WE ARE

RadixNile for Export is an Egyptian grower and exporter of fresh produce, built by people who have spent their working lives in this trade. We are deliberately narrow: four crops, grown and controlled from seed to shipment, rather than a broad list bought in from whoever has stock.

RadixNile is backed by **Elnoureen Food**, our family's Egyptian grower-exporter established in 2014 — their farms, packhouses and grading lines stand behind our supply.

## WHAT WE DO

We don't just export produce — we control its journey. Our garlic and onions are grown on **our own fields** under real Egyptian growing conditions, then sorted, graded and stored under controlled conditions, so every container arrives with the same consistency as the last.

## HEAD OFFICE

# We Grow What We Sell

Garlic · all onions · sweet potato — from our soil to your port.

## WHAT WE DO BEST

Most exporters are traders — they buy from whoever has stock and ship it under their name. We are growers first: specialists in four Egyptian crops — garlic, all onions (red, yellow and spring) and sweet potato. We have deliberately narrowed our range to the crops we do better than anyone, so every container matches the last.

## HOW WE WORK

### Seed to Shipment, Under One Roof

Five stages, all of them ours. Nothing is subcontracted to a trader between the field and the container, which is why we can answer for the calibre in the box.

## FOUR CROPS · ONE STANDARD · ALL YEAR

Garlic and all onions ship year-round from our own controlled storage. Sweet potato is supplied all year: Beauregard and Bellevue hand over between them, backed by cured, controlled storage. Exact volumes and calibres are confirmed at the time of quotation.

# Fresh Garlic

*Allium sativum* · normal & pure white

Garlic is our founding crop. It is grown, cured and graded on our own land in Minya, then sized on our own De-MEC line to the calibre your market asks for. We supply normal-white and pure-white types from our own controlled cold storage, all year.

|           |                                                                  |

# Onions, Field to Port

Red, yellow & spring · sun-cured on our land · bagged & loaded

Our onions are grown and harvested on RadixNile land, sun-cured in our own yards, then graded, mesh-bagged to your count and loaded for export. Real fields and facilities, not stock photography.

BAGGED & READY FOR EXPORT · SIZED TO YOUR COUNT

■ RED ONIONS, MESH-BAGGED  
sized to your count

■ YELLOW ONIONS, MESH-BAGGED  
5-25 kg, to your spec

■ SPRING ONIONS, PACKED  
wrapped & crated for export

— Grown, sun-cured and bagged on our own land — loaded under our control. —

# Fresh Sweet Potatoes

Beauregard & Bellevue · deep orange flesh

Grown under our control from seed to export — cured at harvest, washed and graded on our own line, sized to your exact calibre and loaded reefer for long-haul shipping. Two varieties, Beauregard and Bellevue, whose seasons hand over to one another — which is how we keep sweet potato on the water all year.

|            |                                                                                                         |
|------------|---------------------------------------------------------------------------------------------------------|
| ORIGIN     | Egypt · grown & controlled by RadixNile                                                                 |
| VARIETIES  | Beauregard · Bellevue — two varieties, all sizes available                                              |
| SUPPLY     | Year-round — the two varieties hand over to each other across the season                                |
| SIZES      | Small 150–300 g · Medium 300–500 g · Large 500–800 g · Extra-Large 800 g + (custom on request)          |
| QUALITY    | Clean, well-shaped roots · uniform colour · high dry-matter; free of cuts, cracks, decay or pest damage |

Original operational photography · RadixNile fields, grading line and loading · loadability confirmed per order.

BRANDED FOR EXPORT · PRIVATE LABEL READY

# Packed Under Our Name, Or Yours

Our cartons and retail packs — or your own private label.

Every shipment is packed to your programme — in RadixNile cartons and retail packs, or under your private label. Clearly origin-marked '**Produce of Egypt**', barcoded and export-ready. Artwork, label copy and barcodes are agreed with you before the first pallet is made up.

## BULK & WHOLESALE

Garlic in 5 / 10 kg cartons.  
Onions mesh-bagged 5 / 10 / 15 / 20 / 25 kg. Sweet potato in 14 kg plastic boxes or 6 / 10 / 12 kg cartons, bulk on request.

## RETAIL READY

1 kg and 500 g retail mesh for garlic. Spring onion loose 2 kg, bunched 14 / 20 / 24 / 45, or vac-packed 7×12 — sized to your shelf.

## YOUR PRIVATE LABEL

Your brand, your artwork, your barcode — printed to your buyers' standards and packed on our line, with origin marking and traceability codes intact.

## MARKED, BARCODED, TRACEABLE

Every carton leaves marked with produce, variety, calibre, net weight, pack date and lot code — so a pallet can be traced back to the field it came from, and your quality team can close the loop on any box they open.

Your produce — packed to your brand and your buyers' standards.

# The standards we work to.

RadixNile is a newly established Egyptian exporter. We are building to internationally recognised food-safety and quality standards from day one, and we would rather tell you exactly where we stand than print a badge you cannot verify. Our garlic and onions are sorted, packed and cooled at our family's certified Elnoureen Food packhouse in Beni Suef.

## IN PLACE TODAY

**TRACEABILITY** Lot-coded to the field and the pack date, on every carton

**GRADING** Class I sorting on our own De-MEC and spray-wash lines

**COLD CHAIN** Controlled storage and reefer loading, monitored to port

**HYGIENE** Documented cleaning, trained teams, protective equipment

## HELD BY ELNOUREEN FOOD

**FSSC 22000** Sorting, packing & cooling of fresh garlic and onions · certificate EG-FSS-0012 · valid to 19 April 2027

**ISO 9001** Quality Management System — current copy on request

**ISO 22000** Food Safety Management System — current copy on request

**GLOBAL G.A.P.** Good Agricultural Practice — certificate and GGN confirmed against your order

**U.S. FDA** Food facility registration — confirmed in writing before any US shipment

## WE DO NOT CLAIM WHAT WE DO NOT HOLD

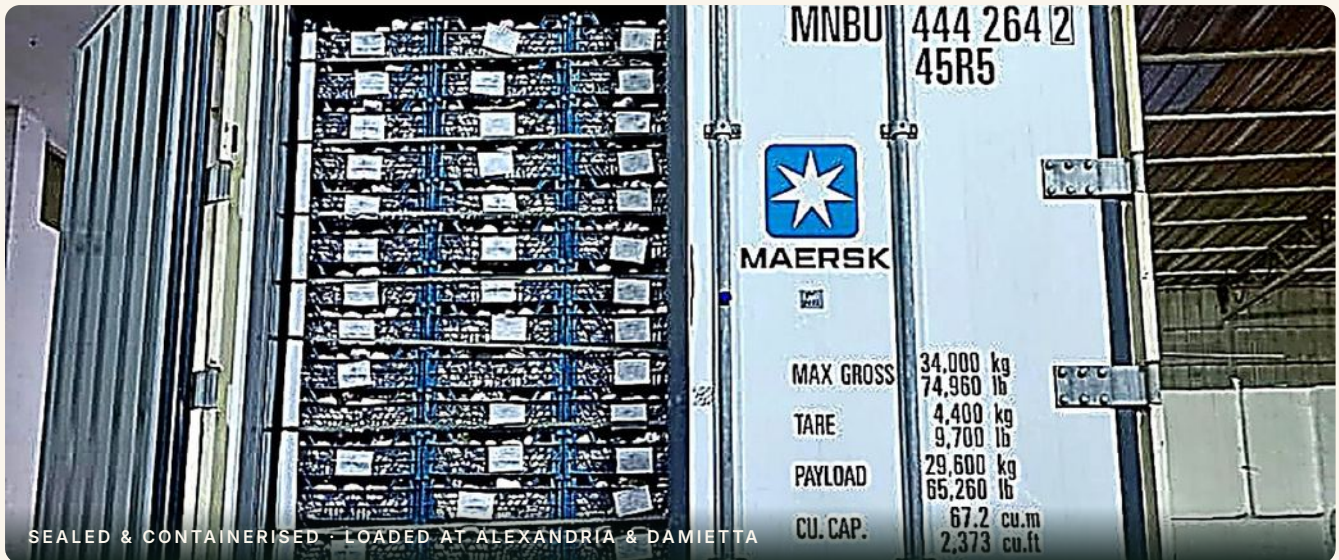

The certificates above are held by Elnoureen Food, our family's operation, not by RadixNile. RadixNile holds none in its own name yet — audits are under way, and we will publish each number here the day it issues rather than borrow one. Any certificate we name can be verified directly with the certifier.

## INDEPENDENTLY AUDITED

FSSC 22000 is issued by Brilliant Certification, accredited by EGAC and a member of the IAF Multilateral Recognition Arrangement. The certificate travels with your quotation, so your quality team can verify it with the certifier before booking.

# Where We Ship

Reefer sea-freight and air-freight perishables — from Egypt to the world.

We load out of **Alexandria and Damietta** for sea freight and **Cairo** for air-freight perishables. These are the lanes we ship on — routing, transit time and vessel schedule are confirmed with your quotation.

## DESTINATIONS WE SERVE

### EUROPE & BLACK SEA

Rotterdam · Felixstowe · Hamburg · Frankfurt · Genoa · Novorossiysk

### THE AMERICAS

New York · Montreal · Santos

### MIDDLE EAST & GULF

Jeddah · Riyadh · Jebel Ali

### ASIA & PACIFIC

Mumbai · Chittagong · Shanghai · Sydney

## LOADING & COLD CHAIN

Onions load 40 ft ≈ 25 t reefer or ventilated. Sweet potato loads 23.296 t net in 14 kg plastic boxes, 24–28 t in other formats, held at 13–14 °C to protect against chilling injury. Garlic ships year-round by air and sea.

# Our People & Our Promise

Honest produce begins with fair, safe and dignified work.

RadixNile is committed to responsible production at every stage. The people who grow, grade and pack your produce are treated fairly, kept safe and never exploited — on our own farms and across our vetted grower network.

## ■ NO CHILD LABOUR

We never employ minors. Every worker is verified to be of legal working age at hiring.

## ■ NO FORCED LABOUR

All employment is freely chosen — never bonded, forced or compulsory labour.

## ■ FAIR PAY & HOURS

Wages meet or exceed the legal minimum, with regulated working hours and proper rest.

## ■ SAFE, HYGIENIC FACILITIES

Trained teams, protective equipment and clean packing halls held to food-safety standards.

## ■ HEALTH & WELFARE

Clean water, rest areas and first aid on site — we look after the people behind every container.

## ■ DIGNITY & EQUALITY

Respect for everyone, regardless of gender or background. No harassment or discrimination.

— Grown, graded and packed by people who are treated fairly — on every shipment. —

## BUILT FOR EUROPEAN RETAIL

Europe's leading retailers require recognised social, ethical and food-safety standards from every supplier. RadixNile is built to meet them — full traceability and documented grading today, third-party certification under way.

## OUR GREEN TRANSITION · STARTED 2026

In 2026 we began our transition to a fully green operation, starting with the conversion of our vehicle fleet from diesel and petrol to electric. We are rolling this out at around 10 % a year, with full conversion targeted within seven to ten years.

# Simple, Clear Terms

Priced your way · terms agreed per order · documented in full.

## PRICING

### CURRENCY

EUR or USD — your choice (we hold both)

### BASIS

C&F (CFR) to your destination port

### ON REQUEST

FOB or other Incoterms

## PAYMENT TERMS

### AGREED PER ORDER

Set once the product, quantity and price are confirmed

### TAILORED TO YOU

Structured to each buyer — order size, market & history

### DETAILS TO FOLLOW

Methods & steps sent in writing with your quotation

## AGREED AFTER QUOTATION

Once your quotation is confirmed and the price agreed, we send a separate message setting out the available payment methods and the exact steps for your order. We work with every client in the way that suits them best — a first-time buyer, a returning partner and a large-volume importer are each handled differently.

## DOCUMENTS WITH EVERY SHIPMENT

Commercial Invoice

Packing List

Certificate of Origin

Phytosanitary Cert.

Bill of Lading

EUR.1 Movement Cert.

Fumigation Certificate

Certificate of Analysis

Priced in your currency, terms agreed per order, papered for clean customs clearance.
